**NOTICE FOR REMEDIAL CLASSES OF SLOW & AVERAGE LEARNER**

**Semester: I-V**

**Course: BA**

**Shift: HINDI**

All B.A Hons and B.A Program semester I-V students are here by informed that as per published internal assessment marks on the Department Notice Board on 7th December, 2023, the students on the basis of their performance have been classified into strong, Average and weak learners.

It is mandatory as per college rules, that students who have been classified as weak learner attend Remedial Classes as per the routine handed to them at the beginning of this semester.

Students who have been classified as Strong learners are encouraged to attend special classes as per the given routine.

Remedial classes arranged for slow learners taken by Mr. Pawan Gurung, Assistant Professor, Department of Political Science.

Here are some of the interactions with the slow learner students through social media:

Here are some of the you tube link videos made for slow learner students by Mr. Pawan Gurung, Assistant Professor, Department of Political Science. The main objective is to facilitate the slow learners to listen the lectures again and again for getting better insights of the topic taught in the class

## **2.2.1 The institution assesses the learning levels of the students and organizes special programs for advanced learners and slow learners.**

### **For Academic Session September 2023 to June 2024**

#### Assessment of Learning Levels and Special Programmes for Advanced Learners and Slow Performers: Department of Economics, BB College, Asansol

The **Department of Economics at BB College, Asansol** has a structured approach to assess students' learning levels after admission, identifying both slow performers and advanced learners using measurable criteria. Special programs are organized to cater to the specific needs of these students, and protocols are followed to track and evaluate their progress.

#### **Methodology and Criteria for Assessing Learning Levels**

##### **1. Identification of Slow Performers:**

##### **Initial assessment of learners**

The **initial assessment process in the Department of Economics is conducted during form verification and the orientation session**. This assessment includes a brief discussion covering various aspects such as:

**Previous Academic Record:** Understanding the student's academic history helps identify strengths and areas needing support.

**Distance from College to Home:** Acknowledging travel challenges can highlight potential difficulties in attendance and engagement.

**Parents' Occupation:** Insight into the family background can provide context for students' educational support systems.

**Number of Siblings:** This information can reveal responsibilities that might impact a student's time and focus.

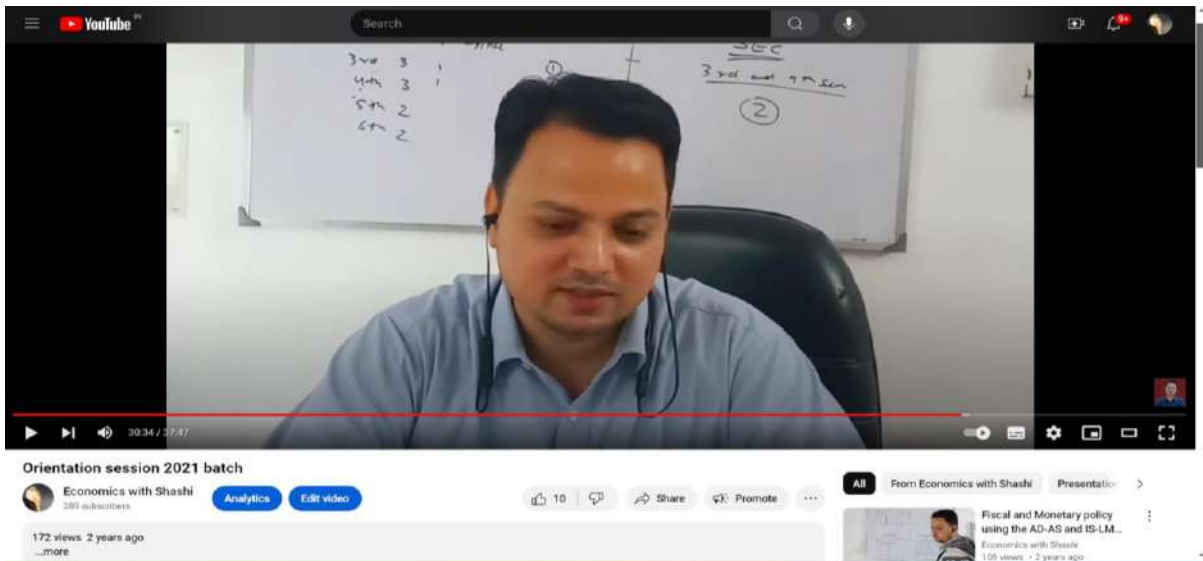

**Reasons for Choosing the Subject:** Knowing their motivation can help tailor the educational experience to their interests and goals.

**Future Interests:** Discussing career aspirations can align academic support with students' long-term objectives.

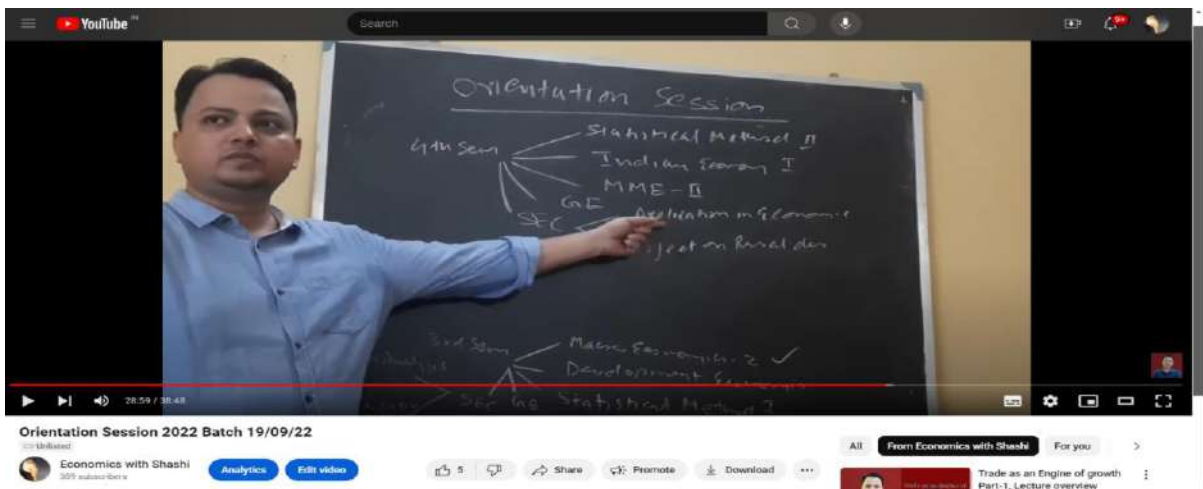

By addressing these factors, the department can effectively identify slow learners early on, ensuring they receive the necessary guidance and resources to enhance their academic performance.

Academic session 2023 to 2024 consist of three batches -2021,2022 and 2023

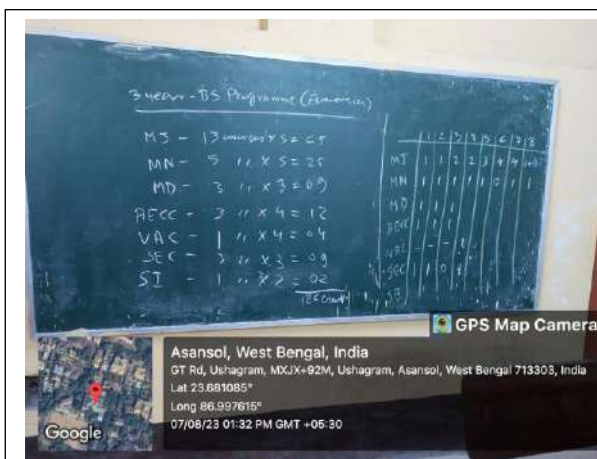

Orientation session for 2021 batch- <https://youtu.be/0vBzCnMIBXs>

Orientation session for 2022 batch- <https://www.youtube.com/watch?v=eSR10PPiEKA>

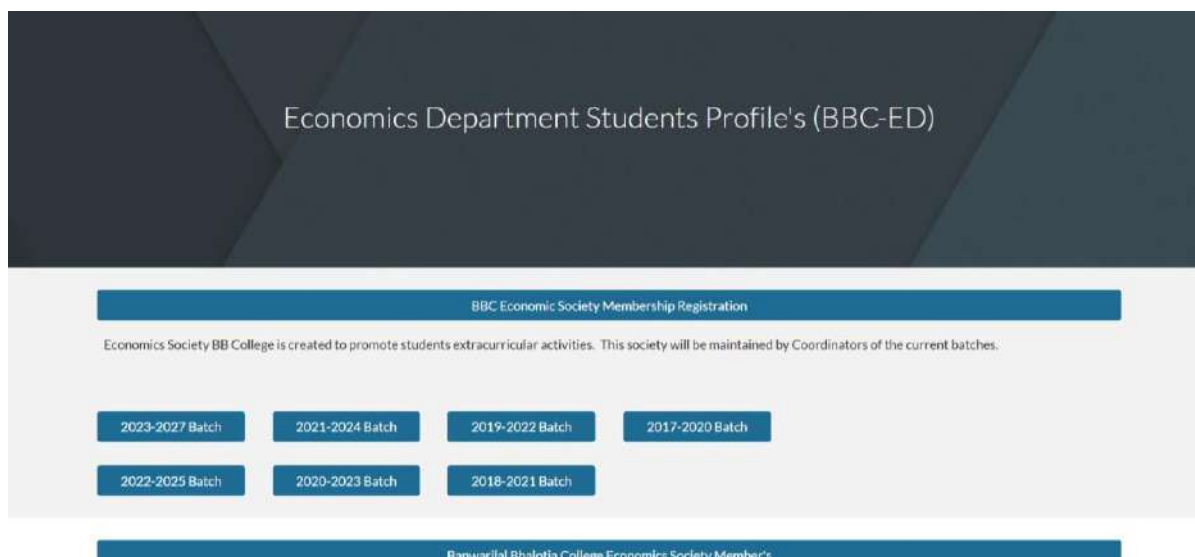

Orientation session for 2023 batch

### Evaluation of Previous Academic Background (CV):

The department includes an evaluation of students' **secondary and higher secondary academic performance** (as part of their CV) to help identify potential slow learners early on. This includes reviewing their grades in key subjects like **Mathematics and English**, which are crucial for pursuing a degree in Economics. Students who show weaker performance in these subjects or have gaps in fundamental concepts are flagged for additional support at the beginning of the course.

<https://sites.google.com/view/bb-economicsdepartmentstudents/home>

Also, it has been observed that over 80% of students in the Department of Economics are slow learners and require additional support. For this, the Department of Economics in order to fill the gap provide 30+ hours of additional remedial classes to 1<sup>st</sup> semester students, ensuring they develop the necessary skills to succeed in their UG course.

**The Department of Economics employs additional several measures to identify and support slow learners throughout the academic session. These are;**

Students scoring below 40% in two or more subjects in internal assessments are classified as slow performers.

Attendance below 75% also serves as a key indicator, highlighting students who may require additional academic support.

Continuous evaluation and students' participation

### Identification of Advanced Learners:

Advanced learners are identified based on their performance in internal assessments, where students scoring above 75% are considered.

Their active participation in academic activities such as debates, seminars, and research projects are also evaluated.

Faculty members assess students' engagement, critical thinking, and proactive involvement in coursework and assignments.

### Example- Identification of Slow Learner and Advance Learner

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
1	NAME	Unit 1 Class task	Unit 2 class unit 3	unit 4	Class tas unit 6	Internal exam	Conversion	Attendance-10 ma	Attendance marks	Participation r	Class test	Marks out of 10

4	MR. MD KASIF			1/2			0	0	59.54%	4	4	1		
5	MISS. SRIJITA MAITY	1/2	1	1	1	1/2	1	0	57.25%	4	4	7		
6	MR. PRANAV BURNWAL	1	1/2	1/2	1		1	9.5	61.83%	6	5	6		
7	MR. SURAJ SINGH	1			1			1	57.25	4	5	4		
8	MR. BIMAL RUIDAS	1	1		1	1	1	30.5	6	8	5	10		
9	MR. DIVYANSHU RAM		1					4.5	1	0	4	2		
10	MISS. URVASHI SHAW	1	1		1	1		0	48.85	0	4	6		
11	MR. RAHUL PRASAD	1	1		1	1	1/2	5	1	81.67	8	4	7	
12	MISS. SABA PARWEEN	1	1	1	1	1	1	8	1.5	82.44	8	5	9	
13	MISS. HENA PARWEEN													
14	MR. SAYAN MITRA													
15	MISS. ZAHIDA PARWEEN	1	1	1	1	1	1	7.5	1.5	96.18	10	5	9	
16	MISS. AFRIN PARWEEN	1	1					0	0	51.9	0	4	3	
17	MISS. SANIA ALI	1	1	1	1	1	1	7	1.6	94.65	10	5	9	
18	MISS. MEHAR AFROZ							0	0		0	5		
19	MR. DEBOJIT PRASAD							1.5	0		0	4	0	
20	MISS. RITIKA AGARWAL		1				1	0	0		0		3	
21	MR. BIBEKANANDA MAHATO			1/2				0	0	45	0		1	
22	MR. HARDEV SINGH SINGH	1	1	1	1	1	1	0	0	91.6	10	5	8	
23														
24														

For 2023 batch, 7 out of 21 students have more than 75 percent attendance, Out of which only 2 were Advance learner (Bimal and Kulshum) and the remaining 5 students were Slow learner. Earlier identification helps to guide students as per the requirement.

### Details of Special Programmes

#### 1. For Slow Performers:

**Remedial Classes:** Extra classes are arranged outside regular hours to help slow performers grasp challenging concepts and improve their academic performance.

**Peer Group Learning:** Slow learners are paired with high-performing students to foster peer-based support and collaborative learning.

**Individual Counseling:** Regular counseling sessions with faculty mentors help address academic struggles and personal challenges, ensuring personalized guidance.

#### 2. For Advanced Learners:

**Enrichment Programs:** The department provide support to Advanced learner to further their skills.

**Certification and Skill Development Courses:** Advanced learners are encouraged to take up additional certificate courses offered by various departments in the BB College, Asansol.

**Leadership and Academic Roles:** Advanced learners in the **Department of Economics** are provided with leadership roles as coordinators to facilitate peer learning, organize academic events, mentor fellow students and represent the department in various events.

**Remedial Classes** Conducted by **Shashi Kr Shaw** for 1<sup>st</sup> Semester in the form of **Basic Mathematics for Economics Analysis Course**

**Unit 1: Basic Concepts of Algebra and Graphs**

**Unit 2: Intercept and Slope:**

**Unit 3: Solutions and Relationships**

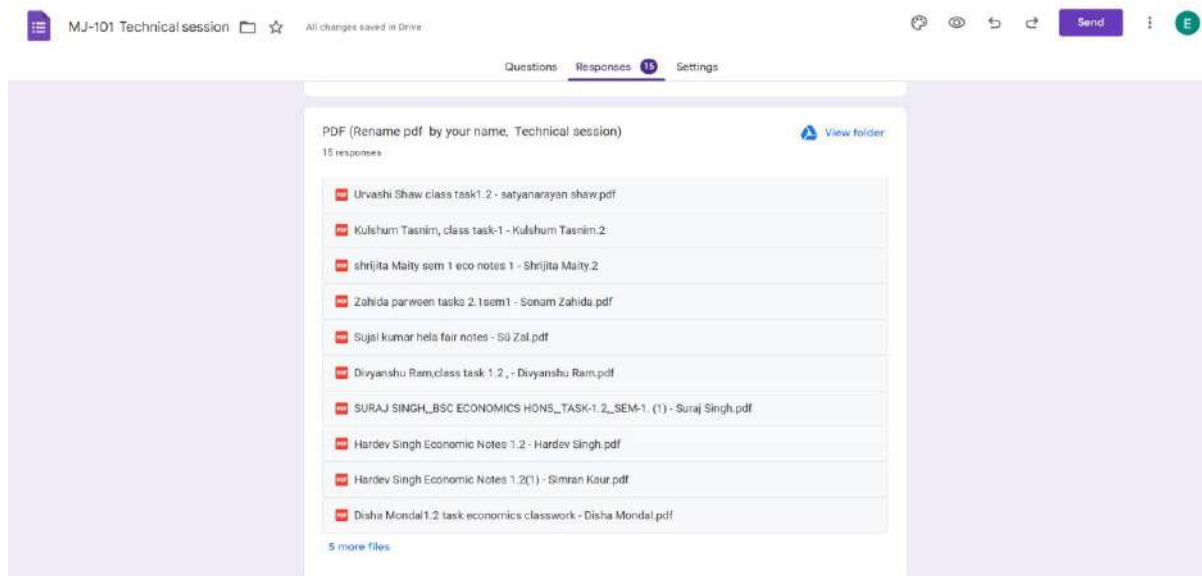

**Unit 4: Calculus for Economics**

**Unit 5: Integration and its Applications**

**Technical session Students written notes-**

### Technical session notes submission by students

Remedial Classes for 5<sup>th</sup> Semester Students.

As the Advance learner of this batch were not regular due to personal matters, majority of the students of this batch turnout to be Slow learner. In order to guide them, regular remedial classes and tutorial conducted.

Also, support is being provided through Mentor-Mantee Group, Course website, recorded videos of lectures to Slow as well as advanced learner.

<https://sites.google.com/view/shashi-kr-shaw/home>

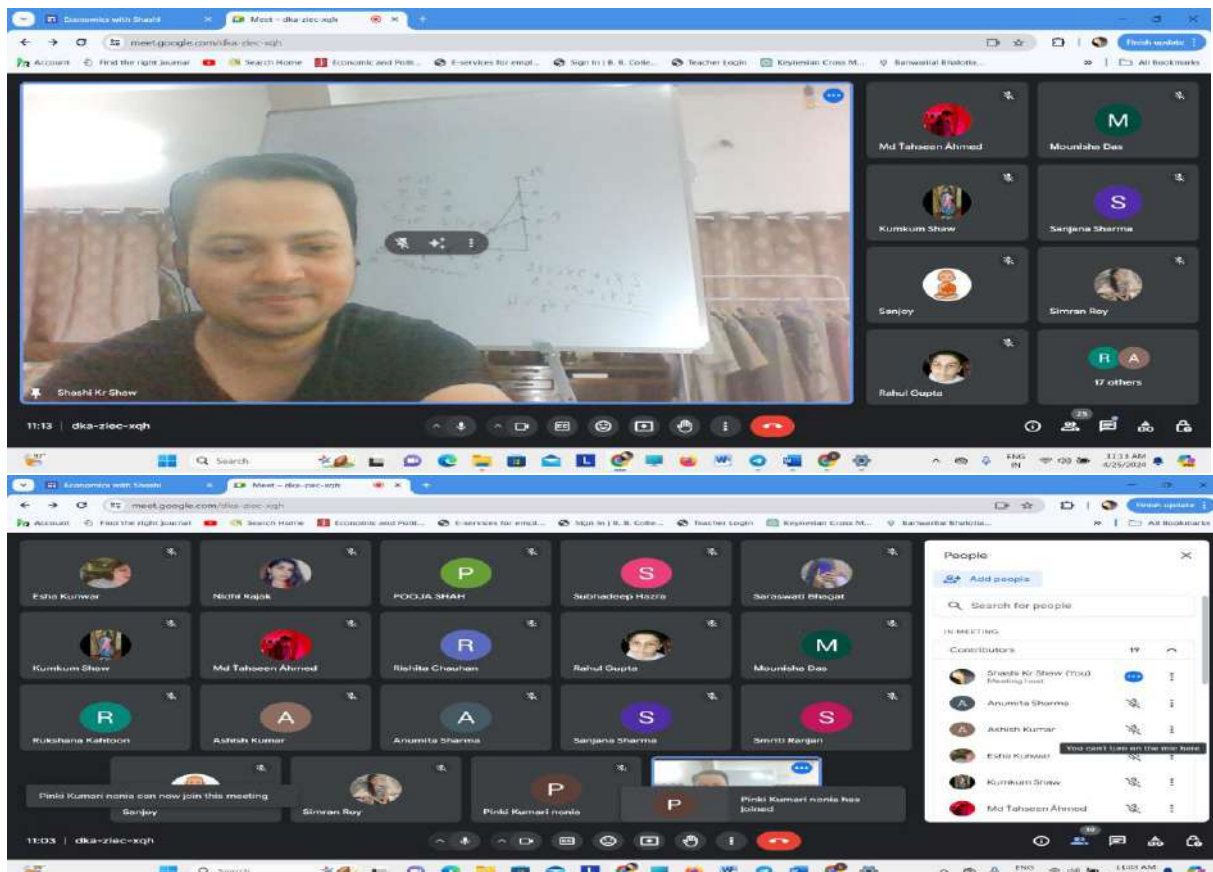

<https://www.youtube.com/c/shashikrshaw/playlists>)

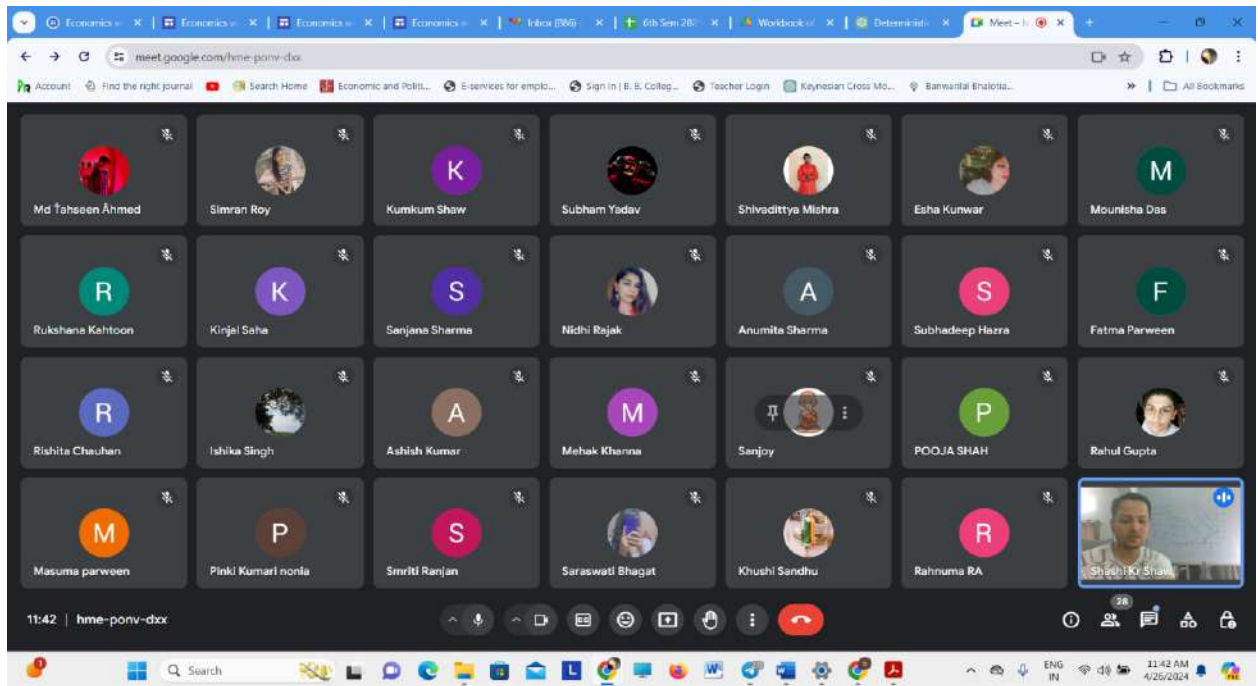

### Examples – Continuity of Regular classes

Online lectures conducted for continuity of Course and address issue faced by Slow learner and Advanced learner for 4<sup>th</sup> Semester [C-10: Mathematical Economics-II-2022 batch 4th Semester](#)

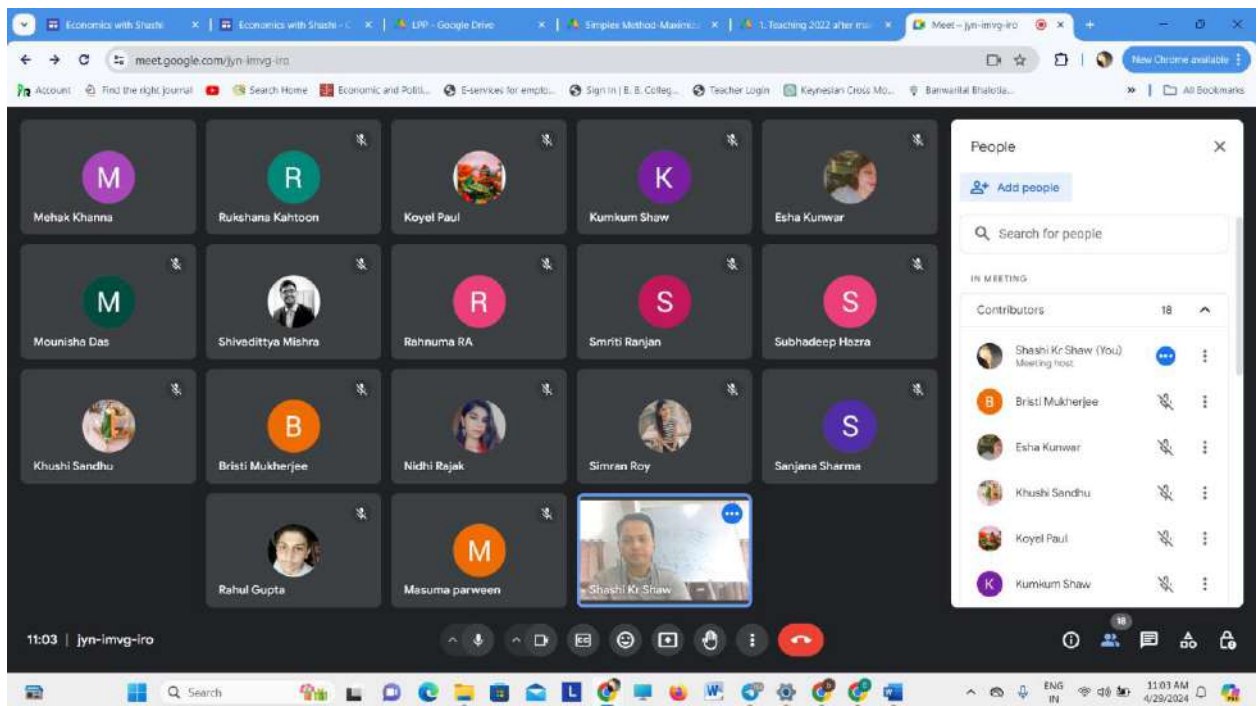

25<sup>th</sup> April, 24, 11 am to 12 pm, <https://meet.google.com/dka-ziec-xqh>

Describe any notable achievements or successes resulting from Prof. Shaw's mentorship.

17 responses

Prof. Shaw's mentorship yielded research publications, academic awards, career advancements, and community impact, fostering holistic growth in mentees.

Under sir's guidance we won the social event competition

This time no any success but In future i success in our prof. Mentorship.

I have secured 28th rank in pumdet2024. Mentorship played significant role in this achievement.

Not yet

Good in economics

Under mentorship of S.S. sir, our 2021 batch have archived 1st position (2 times) in social functions of B.B. College.

Efficient time management & decipline & consistency

Able to overcome fear of maths

His way if guidance make us helpful in study

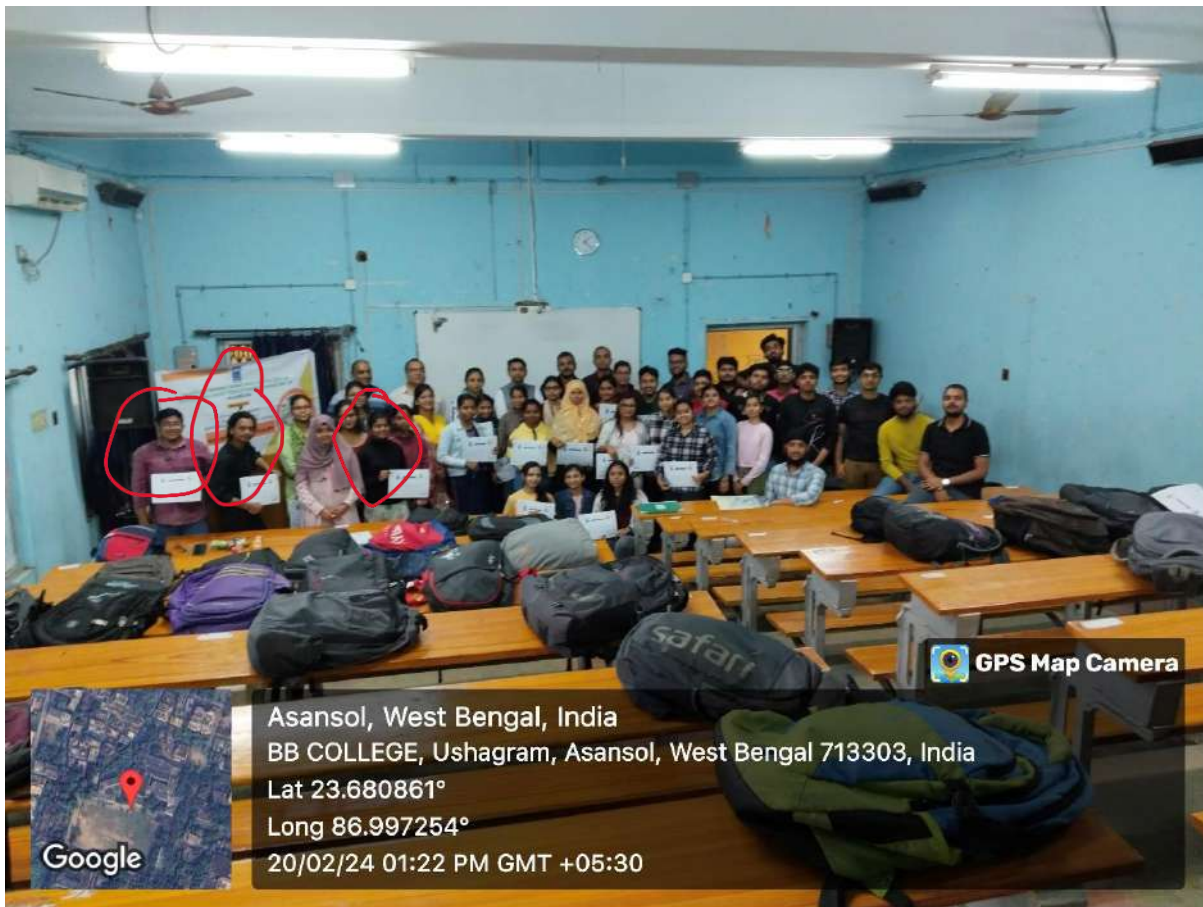

Good result in 6th sem

I got better marks in my academic

Thanks to my mentorship, I successfully delivered my speech at a seminar hall , boosting my confidence

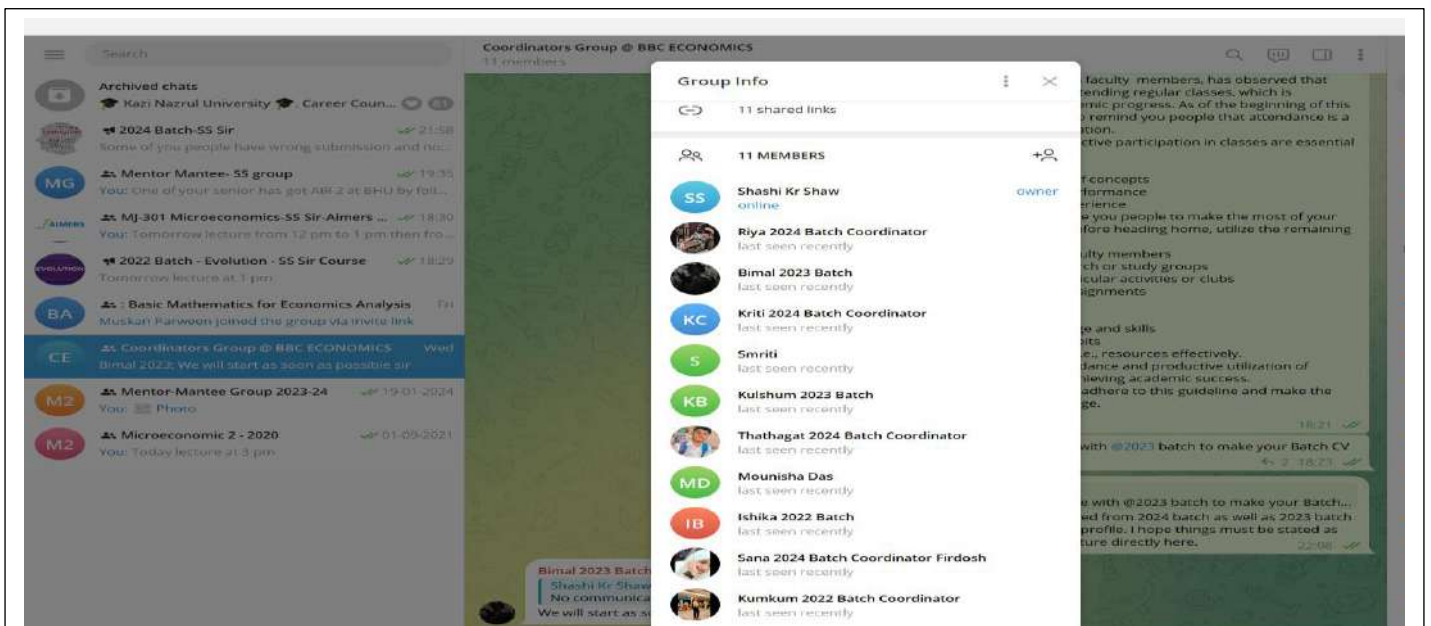

Well performance in results

**Advanced learners and Slow learners are encouraged to take up additional courses offered by various departments in the BB College, Asansol**

Pritam Biswas, Md. Sabir and Ankita Kumari of 2021 batch participated in workshop on the process of cultivation and Marketing of Mushroom.

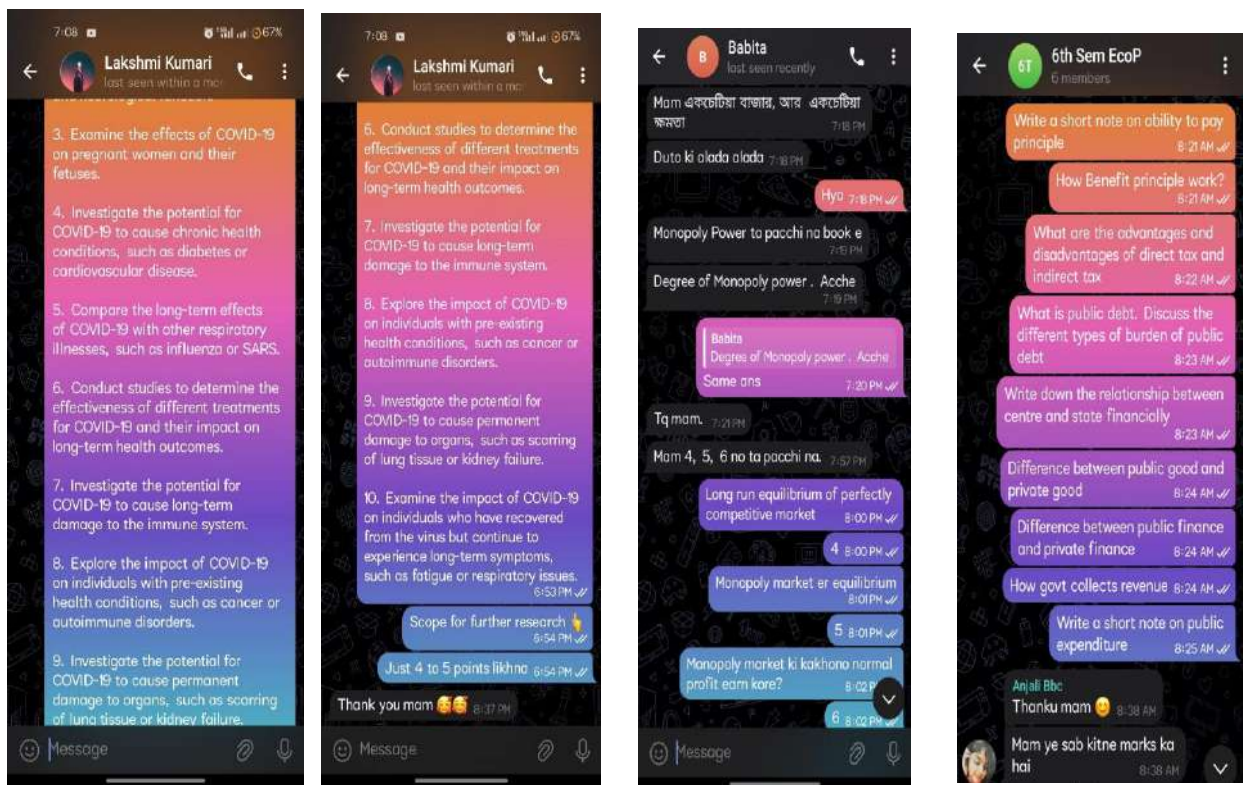

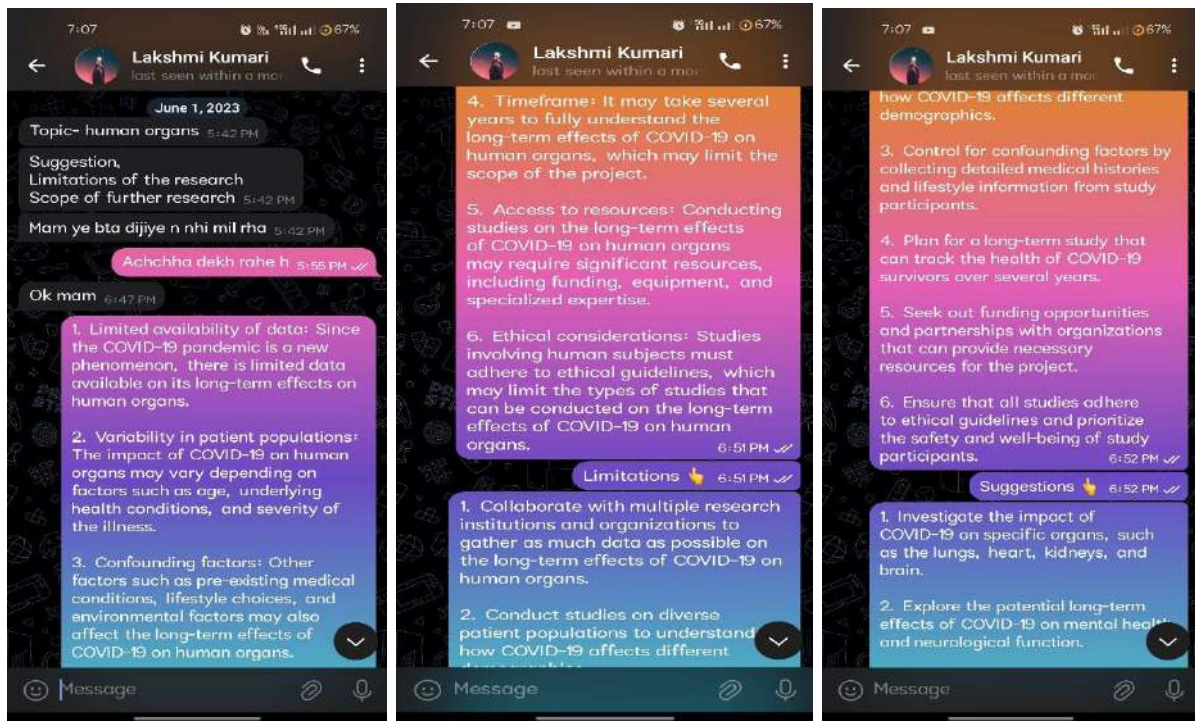

Advanced learners in the **Department of Economics** are provided with leadership roles as coordinators to facilitate peer learning, organize academic events, mentor fellow students and represent the department in various events

**Mousumi Bakshi**, a faculty member of the Economics Department, has arranged **remedial classes for slow learners** for the academic session September 2023 to June 2024

Interaction of Mousumi Bakshi, a faculty of the Economics Department with slow learners before the examination and offered support to ensure that they felt confident and well-prepared for the test.

**Dr. Parnasudha Karmodak** , a faculty member of the Economics Department, has arranged **remedial classes for slow learners** for the academic session September 2023 to June 2024

## DEPARTMENT OF ECONOMICS

Date: 03.06.2024

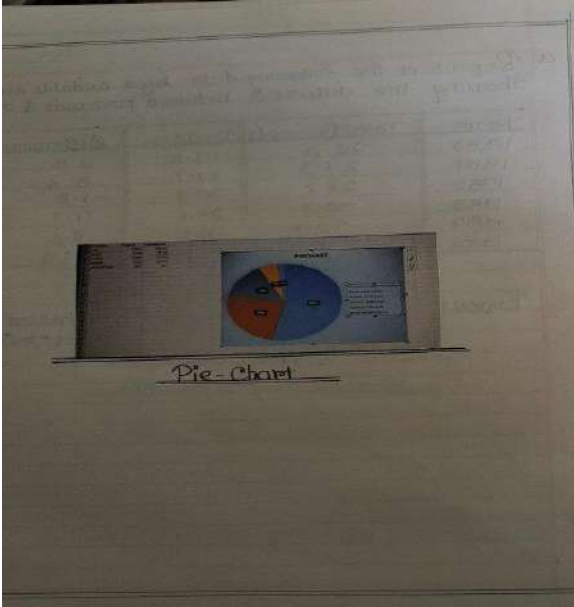

### Notice for Remedial Classes

It is hereby informed to all the 2<sup>nd</sup> semester students that I will take your remedial classes on 4<sup>th</sup> june, 7<sup>th</sup> june, from 2 p.m. onwards in room no 217 for your SEC Paper on Data Analysis. Students, who are willing to resolve their doubts along with other interested students can attend the classes. Students who have laptops are asked to bring it with them in the class.

Dr. Pamasudha Karmodak  
Assistant Professor  
Department of Economics

## Assignments given in the remedial classes

Date: 4th June

Pie-Chart

Expt. No. \_\_\_\_\_ Page No. 2  
Date \_\_\_\_\_

2. Objective - Construct a pie chart for the following data.

Principle of exporting countries of cotton

1000 bales - 1985-86

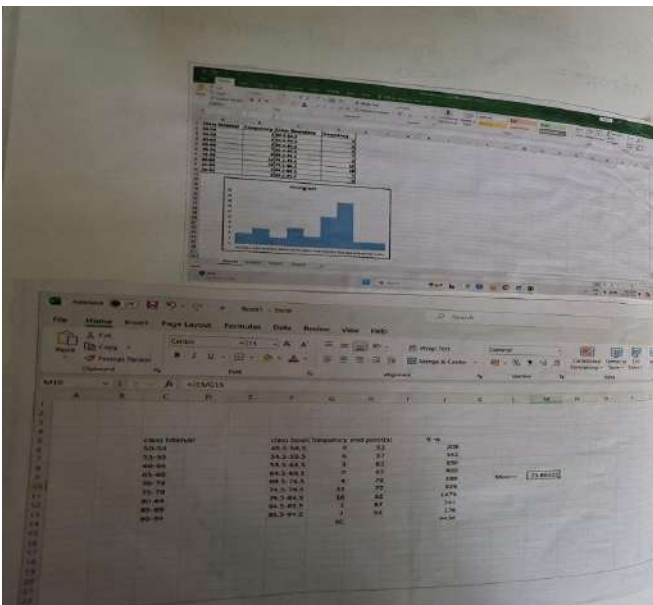

USA	INDIA	EGYPT	BRAZIL	ARGENTINA
6367	2022	1688	680	202

Country	Export	Calculation
USA	6367	$6367 / 11306 \times 360 = 192.51$
INDIA	2022	$2022 / 11306 \times 360 = 64.62$
EGYPT	1688	$1688 / 11306 \times 360 = 51.03$
BRAZIL	680	$680 / 11306 \times 360 = 19.65$
ARGENTINA	202	$202 / 11306 \times 360 = 6.10$
	11306	360

Process → Select the data → Insert → Pie Chart  
→ click on the blank side of Pie chart →  
Select Data → click on 'ok'

Teacher's Signature \_\_\_\_\_

Date: 7th June

Page No. \_\_\_\_\_  
Date \_\_\_\_\_

3. Histogram :- Histogram is the most common form of diagrammatic representation of a grouped frequency distribution. It consists of a set of adjoining rectangles drawn on a horizontal base line, with areas proportional to the class frequencies.

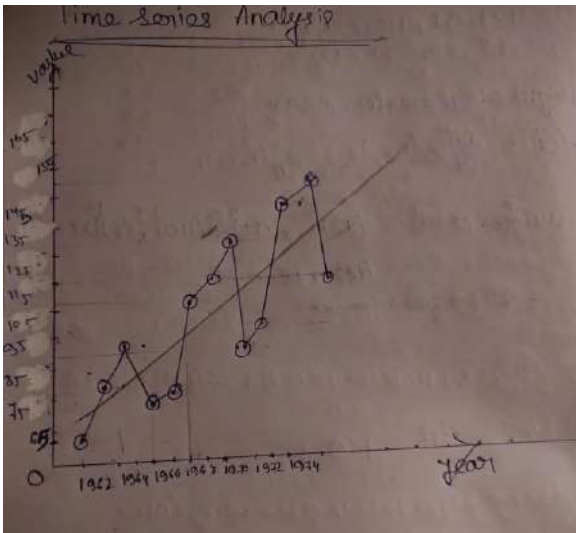

Area of each rectangle = width × height  
= (width of class) × (frequency density)

Class limits	Class Boundaries	Frequency
50 - 59	49.5 - 59.5	8
60 - 69	59.5 - 69.5	16
70 - 79	69.5 - 79.5	14
80 - 89	79.5 - 89.5	10
90 - 99	89.5 - 99.5	5
100 - 109	99.5 - 109.5	2
110 - 119	109.5 - 119.5	2

4. Frequency Polygon :- Frequency polygon is the graphical representation alternative to histogram and may be traced upon as derived from histogram by joining the midpoints of the tops of consecutive rectangles.

Teacher's Signature \_\_\_\_\_

Date: 16<sup>th</sup> June

Year	Time Series (Yi)	7 year semitotals	Semi Average
1962	64		
1963	82		
1964	97	619	$619 \div 7 = 88.4$
1965	71		
1966	78		
1967	112		
1968	115		
1969	131		
1970	88		
1971	100	735	$735 \div 6 = 122.5$
1972	146		
1973	150		
1974	120		

Interaction session with the slow learner's students of the 4<sup>th</sup> semester.

## **Report Showing Special classes for Slow learners and Advanced learners in the Mathematics Department**

### **➤ Action Taken Report for the Upliftment of Slow Learners and Grooming of Advanced Learners**

**To enhance the learning experiences of slow learners and advanced learners in the Mathematics Department through targeted support and enrichment.**

#### **A. For Slow Learners**

1. Individualized Learning Plans (ILPs) : Customized learning plans focusing on specific mathematical concepts.
2. Supplementary Support Sessions: Remedial Classes on foundational topics like algebra and calculus.
3. Multi-Sensory Teaching Methods: Utilized Hands on Practical sessions in Computer Lab & other ICT Tools like WhatsApp and study materials like PDFs, PPTs to clarify complex concepts.
4. Continuous Evaluation through Assignments and Surprise Class Tests

#### **B. For Advanced Learners**

1. Enrichment Programs: Specialized modules in advanced mathematics topics.
2. Grooming for Competitive Examinations like IIT -JAM, CUET, NBHM, TIFR Entrance, etc.
3. Critical Thinking Activities
4. Enhancing their analytical, logical and communication skills to make industry oriented

***Notices regarding the special classes for advanced learners and slow learners by Department of Mathematics is as follows:***

## NOTICE: REMEDIAL AND SPECIAL CLASSES

25.11.2023

### DEPARTMENT OF MATHEMATICS

This is notified to all 3<sup>rd</sup> semester students that as per their performance in Assignments/ classes/home works during this academic session 2023-24 and in previous semesters, they have been classified into strong, average and weak learners.

As per college rules it is mandatory that, the students who have been classified as weak learner have to attend the remedial classes on few basic topics and for doubt clearance (if any) and the students who have been classified as strong learners are encouraged to attend the special classes on some advanced topics related to competitive examinations as per the following schedule. But all the students are allowed to attend both of these classes as per their requirements.

#### Remedial classes:

01.12.2023 (3:00-3:45 PM), 02.12.2023 (3:00-3:45 PM), 15.12.2023 (3:00-3:45 PM), 16.12.2023 (3:00-3:45 PM)

#### Special Classes:

01.12.2023 (3:45-4:30 PM), 02.12.2023 (3:45-4:30 PM), 15.12.2023 (3:45-4:30 PM), 16.12.2023 (3:45-4:30 PM)

### NOTICE: REMEDIAL AND SPECIAL CLASSES

15.08.2023

#### DEPARTMENT OF MATHEMATICS

This is notified to all 5<sup>th</sup> semester students that as per their performance in Assignments/ classes/home works during this academic session 2023-24 and in previous semesters, they have been classified into strong, average and weak learners.

As per college rules it is mandatory that, the students who have been classified as weak learner have to attend the remedial classes on few basic topics and for doubt clearance (if any) and the students who have been classified as strong learners are encouraged to attend the special classes on some advanced topics related to competitive examinations as per the following schedule. But all the students are allowed to attend both of these classes as per their requirements.

#### Remedial classes:

22.09.2023 (3:00-3:45 P.M), 23.09.2023 (3:00-3:45 P.M), 23. 11.2023 (3:00-3:45 P.M), 25.11.2023 (3:00-3:45 P.M).

#### Special Classes:

22.09.2023 (3:45-4:30 P.M), 23.09.2023 (3:45-4:30 P.M), 23. 11.2023 (3:45-4:30 P.M), 25.11.2023 (3:45-4:30 P.M).

## Department of Mathematics BANWARILAL BHALOTIA COLLEGE

A constituent college of the **KAZI NAZRUL UNIVERSITY**, Asansol  
(GOVT. SPONSORED U G & P G College)  
ASANSOL – 713303, WEST BENGAL, INDIA

**Remedial classes arranged for slow learners taken by Dr. Apurba Banerjee and Dr Dalbinder Kour, Assistant Professor, Department of Mathematics.**

In the above picture Dr. Apurba Banerjee, Assistant Professor, Department of Mathematics, could be seen discussing the basic concepts of an important topic of group theory which is “Homomorphism of Groups”. Although the topic may be intimidating to new/slow learners, but he made it very easy and captivating through numerous geometric and other examples. Both slow learner and advance students from not only Mathematics but also from other departments come to him to clear their concepts in Mathematics and get new visions and ideas on the topic.

## Department of Mathematics BANWARILAL BHALOTIA COLLEGE

A constituent college of the **KAZI NAZRUL UNIVERSITY**, Asansol  
(GOVT. SPONSORED U G & P G College)  
ASANSOL – 713303, WEST BENGAL, INDIA

In the above picture Dr. Dalbinder Kaur, Assistant Professor, Department of Mathematics, was discussing vector calculus to slow learner students. Although the topic may be interesting, some slow learner students find it difficult to understand the surface and volume integrals involved in it. Dr. Kaur uses several illustrations and practical examples to make the topic easy to grasp and students like to approach her because of her amicable nature and calm and cool demeanour.

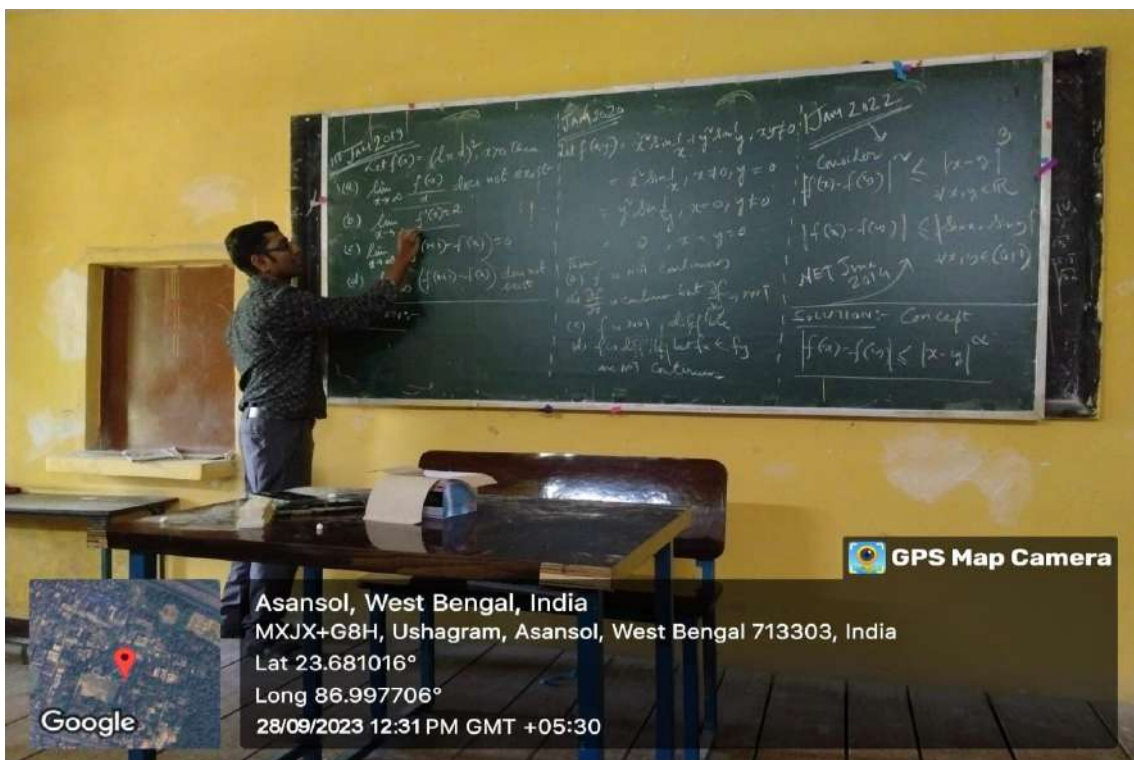

# Department of Mathematics BANWARILAL BHALOTIA COLLEGE

A constituent college of the **KAZI NAZRUL UNIVERSITY**, Asansol  
(GOVT. SPONSORED U G & P G College)  
ASANSOL – 713303, WEST BENGAL, INDIA

- **Special classes conducted for advanced learners by Dr. Subharthi Sarkar, Assistant Professor, Department of Mathematics.**

Here Dr. Sarkar could be seen discussing IIT JAM Mathematics problems. Such classes are conducted twice a week for final year students to enable students to gain experience in competitive examinations and improve their problem-solving skills. Each year several students qualify national level examinations and bring laurels to the department and the college.

SPECIAL PRACTICAL EXAMINATION CONDUCTED BY ALL THE FACULTIES OF DEPARTMENT OF GEOGRAPHY (DAY SHIFT) FOR SLOW LEARNERS

SET-1

Q.1) आपूर्ति - वादि 200 किलोमीटर दूरी, वादि - उत्पत्ति - अवधि

उत्तर :-

- 1) उत्पत्ति - वादि - उत्पत्ति - अवधि - उत्पत्ति
- 2) उत्पत्ति - वादि - उत्पत्ति - अवधि - उत्पत्ति

Q.2) उत्पत्ति - वादि - उत्पत्ति - अवधि - उत्पत्ति

उत्तर :-

- 1) उत्पत्ति - वादि - उत्पत्ति - अवधि - उत्पत्ति
- 2) उत्पत्ति - वादि - उत्पत्ति - अवधि - उत्पत्ति

4+

1) a)

$$R:F = \frac{\text{Map distance}}{\text{Ground distance}}$$

$$= \frac{5\text{cm}}{30\text{km}}$$

$$= \frac{5\text{cm}}{30 \times 100000\text{cm}}$$

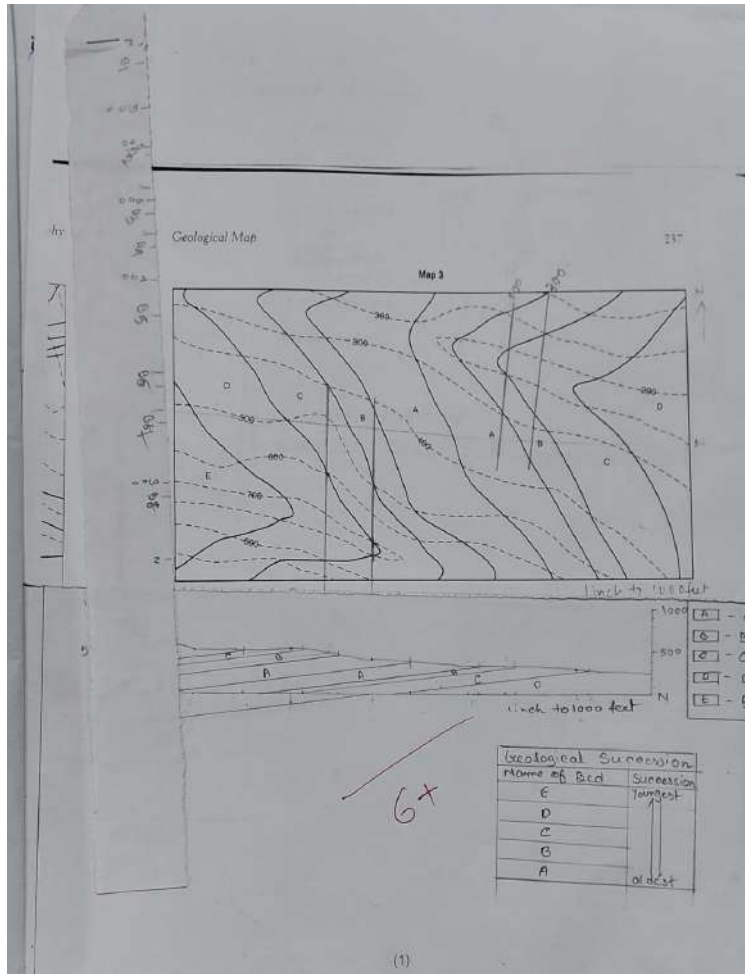

$$= \frac{5\text{cm}}{3000000\text{cm}}$$

$$= \frac{1}{600000}\text{cm}$$

R:F = 1:600000

Ans → R:F = 1:600000

An examination after remedial cases has been taken by **Disha Sengupta**, State Aided College Teacher-I of Semester IV

### ● EL-Nino :-

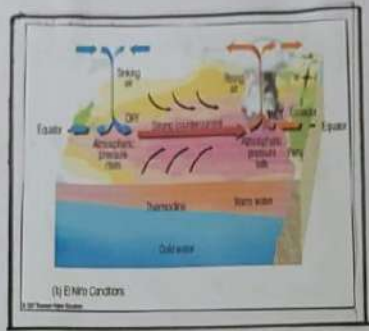

EL-Nino is considered as a significant weather phenomenon which occurs off the west coast of South America, mainly off the Peru coast. Mainly EL-Nino is a sub-surface warm current flows from west to east along the southern equatorial Pacific ocean at a distance about 180 km from the Peruvian coast. EL-nino has been related to the increase of temperature in the east Pacific ocean along the coast of Ecuador and Peru.

### ● Origin of term :-

The EL-Nino event was first noticed in the year 1541. EL-Nino occurs once in every 7 to 8 years during the Christmas season (late Dec. to early Jan.). During the 19th century the local residents along the coast of Peru named this warm counter current EL-Nino which translated from Spanish is 'The boy child of Christ'.

This warm current is named child Christ because it usually appeared during the Christmas season in late December. However, at irregular intervals of 3 to 7 years this warm current flows along the coast of tropical Pacific ocean.

Mainly, the word EL-Nino has got its significant importance in 1892, when Captain Camilo Carrillo first mentioned the term EL-Nino in Geographical Society Congress inaugurated in Lima, the capital of Peru.

El - Niño

© Origin / Causes for formation of El-Niño :-

The causes of formation of El-Niño have been studied since 1950, when El-niño became widely accepted in the scientific community. Though the exact formation or origin of El-niño is still complicated, as the causes of formation of El-niño is hugely debated to the scientists community.

Though the exact formation or origin of El-Niño is still complicated, as the causes of formation of El-Niño is hugely debated to the scientists - many scientists and climatologist J. Barckness, plimer, Adam, man are proposed different theories regarding the El-Niño formation. So the causes of El-Niño formation according to different theories has been discussed below :-

(i) Role of Trade Wind :- So many scientists

believed that trade wind is the major force for the formation of El-Niño. According to Barry and chorley the temperature of the western tropical Pacific ocean is higher than the eastern Pacific, and the temperature between western and eastern Pacific are  $30^{\circ}\text{C}$

and  $20^{\circ}$  respectively. Due to rotation of the earth the trade winds in low latitudes blow from east to west. In the southern TFCZ, the south east trade wind pushing warm surface water continuously from east to west in tropical pacific for that the sea surface level of western pacific has become high (50-100 cm) than eastern pacific has become high. In the eastern pacific due to upwelling of cold peruvian current the thermocline layer much shallower in the eastern pacific.

Trade Wind

As the water of the eastern pacific is much colder than the west, then high pressure with dry weather and low pressure with wet and rainy weather is formed respectively in the eastern and western pacific.

Due to the continuous flowing of water from east to west when the difference of sea level between western and eastern part of the ocean has become more than 100 cm, then to maintain balance of the height between these two parts of ocean the counter current of the equatorial pacific ocean (eastward current) flows towards the eastern pacific at a high speed (4 km/hr.).

When the equatorial counter current flows towards east at a high velocity then the warm water of the western pacific being flowing to the east captures the cold water of the eastern pacific. Thus the equatorial upwelling decreases and the thermocline layer gets deeper in the eastern pacific along the coast of South America. The high speed arrival of warm counter current in the eastern pacific or along the coast of Peru is known as El-nino current.

# ECONOMIC ZONES (OF INDIA) ACCORDING TO P SENGUPTA (India's Economic Regions)

P. Sengupta (Phulzenu Sengupta) in 1968 in his article entitled "Territorial Association of natural resources with natural Regions" attempt regionalisation based on the relationship between different natural regions of India and the natural resources found in those regions. In 1970 proposed regionalisation of India on the basis of population and resources.

## Discussion on Economic Regions

① Economic Regions: P Sengupta (1968) divided India into 7 macro regions and 42 meso regions.

### Basis of Economic Categories

- (i) P. Sengupta (1961) defines macro economic regions on the basis of administrative area states boundaries.
- (ii) Each large economic region is divided into several medium-sized "Meso economic region".
- (iii) "Meso" regions include core areas of economic growth (Multipurpose river valley project large cities and industrial center, the combined effect of which is expected to contribute to the development of surrounding areas).

Planning Regions of India after P. Songupta

MACRO REGIONS	MESO REGION
(i) The North Eastern Region (Assam, Nagaland, NEFA, Manipal and Tripura)	<ol style="list-style-type: none"> <li>1. Upper Brahmaputra valley</li> <li>2. Lower Brahmaputra valley</li> <li>3. Mineralized Plateau</li> <li>4. Eastern &amp; Northern Hill</li> </ol>
(ii) The Eastern Region (West Bengal Bihar and Orissa)	<ol style="list-style-type: none"> <li>1. Calcutta - Hooghly Region</li> <li>2. Bamodar valley Area</li> <li>3. Chotanagpur &amp; Northern Orissa Plateau</li> <li>4. Southern Hills &amp; Plateau of Orissa</li> <li>5. Lower Ganga Plain, Deltas &amp; Coastal Plain</li> <li>6. Darjeeling hills &amp; submontane tracts (Duars)</li> </ol>
(iii) The north Central Region (Uttar Pradesh)	<ol style="list-style-type: none"> <li>1. Northern Himalayan area</li> <li>2. Western Ganga plain</li> <li>3. Eastern Ganga Plain</li> </ol>
(iv) The Central Region (Madhya Pradesh)	<ol style="list-style-type: none"> <li>1. Eastern Madhya Pradesh</li> <li>2. Western Madhya Pradesh</li> <li>3. Bastar Area</li> <li>4. Central Madhya Pradesh</li> </ol>
(v) The western Region (Maharashtra, Gujarat, Daman, Diu, Dadra and Nagar Havel)	<ol style="list-style-type: none"> <li>1. Bombay city &amp; its conurbation Area</li> <li>2. Interlinking area along the railway between Bombay &amp; Nagpur</li> <li>3. Coastal part of Maharashtra</li> </ol>

	<ol style="list-style-type: none"> <li>4. Western Maharashtra mainly Plateau Area</li> <li>5. Eastern Maharashtra</li> <li>6. Central Maharashtra</li> <li>7. Gujarat Plain</li> <li>8. Saurashtra</li> <li>9. Kutch</li> </ol>
<p>[vi] The North Western Region (Rajasthan, Punjab, Haryana, Himachal Pradesh, Jammu and Kashmir)</p>	<ol style="list-style-type: none"> <li>1. Punjab Plain</li> <li>2. The union Territory of Delhi</li> <li>3. Western Rajasthan</li> <li>4. Eastern Rajasthan</li> <li>5. Himalaya Hills including</li> <li>6. Kashmir Valley &amp; its surrounding Hills</li> </ol>
<p>[vii] The Southern Region (Andhra Pradesh, Mysore, Kerala, Goa, Pondicherry Karaikal, Koke, Yanam, Andaman and Nicobar Island, Laccadive, Mini Coya and Amindivi Island)</p>	<ol style="list-style-type: none"> <li>1. Coastal Plain of Andhra Pradesh</li> <li>2. Telengana Area</li> <li>3. Rayalseema Area</li> <li>4. South Central Industrial Area</li> <li>5. South-Eastern Coast</li> <li>6. Anaimalai Condamon &amp; Nilgiri Hills</li> <li>7. Western Coast</li> <li>8. Malnad &amp; Western Ghats Area</li> <li>9. Maidan Area</li> <li>10. Coral Island</li> </ol>

Date: 02-08-2023

**:: Special Class Notice ::**

This is to inform all 4<sup>th</sup> sem Physics Hons that a few special classes have been arranged to boost your academic performance. Regular attendance is mandatory to benefit from these classes. These classes will be held according to the following schedule.

Dates of classes: 07/8/2023, 09/8/2023 & 14/8/2023  
Time: 10a.m. to 12noon

*[Signature]*

Handwritten answer sheet for a progress evaluation test. The header includes the student's name, ID, and course details. The main text contains two questions: (a) Difference between microwave transistor and TED devices, and (b) Microwave equations within quantum gain with microwave operates within quantum gates while T are solid state devices having no junctions. A vertical stamp on the left reads 'I WRITE HERE'.

Header: KNU/262963, Name: Sharmila Tudu, Reg No. - 102223320002, Main Answer Booklet Number: KNU, Course Code: MSCPH7SC201, Course Name: Microwave and Quantum Device.

Q1) Difference between microwave transistor and TED devices

Q2) Microwave equations within quantum gain with microwave operates within quantum gates while T are solid state devices having no junctions

Q3) Majority of microwave transistors are fabricated from elemental semiconductor while semiconductors like GaAs.

Handwritten answer sheet for a progress evaluation test. The header includes the student's name, ID, and course details. The main text defines an ensemble as a collection of microsystem with microscopically identical with independent individual. It lists three types of ensembles: Canonical, Grand Canonical, and Micro-canonical.

Header: 289861, KNU221, Name: Indrani Datta, Reg. no. - 102223320002, Main Answer Booklet Number: KNU221, Course Code: MSCPH7SC201, Course Name: Thermal and Statistical Physics.

1. ensemble:

An ensemble is a collection of microsystem with microscopically identical with independent individual. The system consist of different particles.

There is three types of ensembles:

- i) Canonical ensemble
- ii) Grand Canonical ensemble
- iii) Micro-canonical ensemble

Sample answer copy of PG 2<sup>nd</sup> sem progress evaluation test on 22-7-2024

Handwritten answer sheet for a progress evaluation test. The header includes the student's name, ID, and course details. The main text discusses a system of ideal classical gas, defining the partition function and the Hamiltonian. It includes several mathematical derivations for the partition function Z(N, V, T).

Header: 289863, KNU221, SAMANTHA SNEHA PAUL, Reg. No. - 101233520013, Main Answer Booklet Number: KNU221, Course Code: MSCPH7SC201, Course Name: Thermal and Statistical Physics.

2) Considering a system of ideal classical gas having N no. of particles in a volume V, the particles are non-interacting and non-relativistic. According to equilibrium theorem,

$$Q_N(V, T) = \frac{1}{h^{3N} N!} \int e^{-\beta E} d\Gamma$$

here,  $Q_N$  = partition function,  $E$  = energy,  $d\Gamma$  = total phase space

For a ideal classical gas, the Hamiltonian is given by

$$H = \sum_{i=1}^N \left[ \frac{p_i^2}{2m} + V(\mathbf{r}_i) \right]$$

Using this in the above equation,

$$Q_N(V, T) = \frac{1}{h^{3N} N!} \int e^{-\beta \sum_{i=1}^N \left[ \frac{p_i^2}{2m} + V(\mathbf{r}_i) \right]} \prod_{i=1}^N d\mathbf{r}_i d\mathbf{p}_i$$

Using SSS  $\int d\mathbf{r}_1 d\mathbf{r}_2 \dots d\mathbf{r}_N = V^N$  & SSS  $\int d\mathbf{p}_1 d\mathbf{p}_2 \dots d\mathbf{p}_N = 4\pi^3 p^3 dp$

$$Q_N(V, T) = \frac{V^N}{h^{3N} N!} \left[ \int_0^\infty e^{-\beta \frac{p^2}{2m}} 4\pi p^2 dp \right]^N$$

Using  $\int_0^\infty e^{-\beta A^2} A^2 dA = \frac{\sqrt{\pi}}{2\beta^{3/2}}$

$$Q_N(V, T) = \left( \frac{4\pi V}{h^3} \right)^N \frac{1}{N!} \left( \frac{\pi^{3/2}}{2\beta^{3/2}} \right)^N$$

WhatsApp chat conversation discussing a physics problem. The messages explain the continuity of the normal components of E and D at an interface between two dielectrics, and conclude that the correct answer is C.

11 May 2024

At the interface of two dielectrics normal components of both E and D are discontinuous if there is free charge on the surface. However tangential components of E and D are always continuous. But due to discontinuous jump of permittivity at the interface of two dielectrics there will be polarization surface charge induced at the interface which makes the normal component of P discontinuous at the interface. Here in this problem option B will be the correct answer. 7:59 am

Sorry since in this problem there is no mention of free charge the correct option will be C. 8:01 am

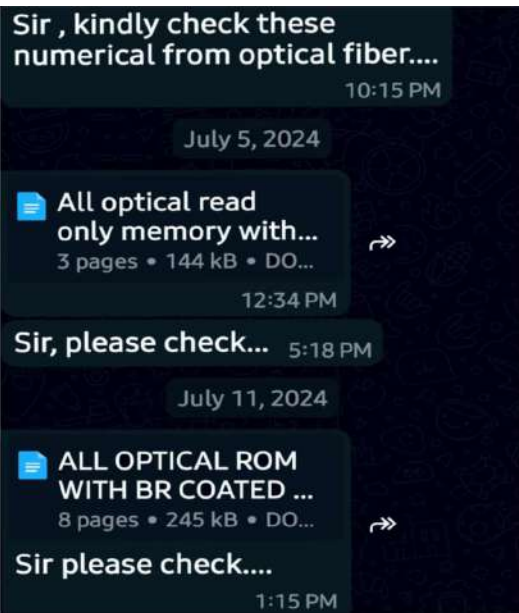

Haa sir answer C achay. 10:04 am

Sir Polarization P er normal component ta kano discontinuous hocchay mathematical vabay bhujhay dilay valo hoto. 1:12 pm
