**Link:** <https://meet.google.com/asd-rews-abd>

**Overview:** The Career Counselling and Placement Cell of Banwarilal Bhalotia College partnered with Rentokil Pest Control and Initial India to facilitate a campus recruitment drive for students of the Chemistry and Zoology departments. This initiative aimed to provide placement opportunities for fresher graduates and postgraduates, including students in their 6th semester and pass-outs.

The recruitment drive was widely promoted, and students were informed through official notices, including instructions for the online application process, interview date, and necessary documentation such as CV/Resume in both soft and hard copies. The drive generated significant interest among students, reflecting their enthusiasm to participate in career-oriented opportunities.

**Student Participation:** A total of **1350 students** from various semesters and years registered for the recruitment drive. This included both undergraduate and postgraduate candidates from the departments of Chemistry and Zoology.

- **Departments:** Chemistry and Zoology
- **Registrations:** 1350 students

The impressive turnout demonstrates the students' eagerness to explore career avenues and the efforts of the Placement Cell in encouraging participation.

**Recruitment Process:** The interviews were conducted in an **online mode** on **7th May 2024 (Tuesday)**. Students were required to keep their cameras on during the interview process and were well-prepared with their resumes. The positions available, namely Operations Executive, Sales Executive, and Service Planner, were aimed at fresher graduates.

**Outcome:** Despite the large number of registrations and active participation of students, **unfortunately, none of the 1350 students were selected** for the available positions. This outcome highlights the competitive nature of the recruitment process and the need for further preparedness and skill enhancement among candidates to meet industry requirements.

**Recommendations and Next Steps:** In light of the outcome of the recruitment drive, the following steps are recommended to better prepare students for future opportunities:

1. **Skill Development Programs:** Conduct workshops and training sessions focused on enhancing communication skills, technical knowledge, and interview preparation.
2. **Mock Interviews:** Organize mock interviews to help students build confidence and understand the expectations of recruiters.
3. **Industry-Oriented Training:** Collaborate with industry experts to deliver training programs tailored to the skills required for roles like Operations Executive, Sales Executive, and Service Planner.
4. **Resume Building Workshops:** Assist students in creating impactful resumes that align with job requirements.
5. **Feedback Mechanism:** Gather feedback from participating students and recruiters to identify gaps and address areas of improvement.

**Conclusion:** The collaboration with Rentokil Pest Control and Initial India provided a valuable learning experience for the students of Banwarilal Bhalotia College. Although the outcome was not favorable this time, it serves as a stepping stone for future initiatives. The Career Counselling and Placement Cell remains committed to empowering students with the necessary skills and opportunities to achieve career success.

## Installation Report

of

## 85000 kW roof top Solar Power Plant

At a solar plant, the sun's energy is directed and used to create environmentally friendly power. India has a restricted reserve of non-renewable sources of energy, and the nation is intensely

subject to imports to meet its energy needs. Solar power can diminish India's reliance on non-renewable sources of energy, which can assist with lessening the country's energy import bill.

Benefits of solar energy :-

1. Solar energy is clean & green energy
2. Not dependent on other sources of Energy
3. Non-maintenance
4. Safer than Other
5. Renewable Energy
6. Electricity Bill Reduction

***Admission & BBA ,BCA Block-B (20 KW)***

7. Maximum Usage
8. Technology Development

Altogether, the use of solar panels helps us save electricity and get rid of huge electricity bills just by utilizing the natural energy resource i.e. Sun.

Solar Power Generating Systems (SPGS) were installed on rooftops of Science building, Arts building, Administrative building & Hindi shift building. The plants were established by **Starc Energy Solutions Pvt. Ltd. OVERALL CAPACITY: 85000kW/ 154 Modules / 4 Invertors /..... Unit Per Day Generation.** The Roof top 400KW Solar Power Plant at SKIT was inaugurated on Tuesday, 23<sup>rd</sup> Dec., 2023 by the Honourable MP, Shri Shatrughan Sinha.

The specifics of the plant are as follows:-

**SPGS of 20 kW**

Solar Module Model No. : 144MF-SPV module 545wp

Make: Sova Solar

No. of modules: 36

**Inverter details**

On grid inverter

Model: KSY-20k-5g pro

Make: K Solare

**SPGS of 25 kW**

Solar Module Model No. : 144MF-SPV module 545wp

Make: Sova Solar

No. of modules: 46

**Inverter details**

On grid inverter

Model: KSY-25k-5g pro

Make: K Solar

**NOTE: Applied for net metering. The excess production gets transferred to the grid.**
