The Research and Development Cell, in association with Internal Quality Assurance Cell, Banwarilal Bhalotia College, Asansol-713303, organised a Seminar on “One-day Seminar on the theme “Research Methodology- SOURCES FOR RESEARCH GRANTS AND RESEARCH PROPOSAL” on 27th June, 2023 from 1PM.

Abstract of the talk:

Research funding is defined as a grant obtained for conducting scientific research generally through a competitive process. To apply for grants and securing research funding is an essential part of conducting research. In this talk, we will discuss why should one apply for research grants, what are the avenues for getting research grants, and how to go about it in a step-wise manner. We will also discuss how to write research grants and what to be done after funding is received.

- **A summary of the events in chronological order as they happened on the day of the seminar:** There was one technical session in this Seminar followed by an interactive session. The seminar opened with the inaugural session with a welcome note from the anchor who also introduced the speaker. The speaker delivered his lecture and next the moderator as well as the convenor of the seminar made a few comments and raised a question. Next, we had a very lively interactive session between the audience and the speaker. Thereafter, one of our joint secretaries presented the vote of thanks and formally concluded the seminar.

Around **45** faculties from mainly science back ground from college attended the seminar. The seminar was conducted with active and unconditional efforts of all our esteemed committee members (as provided in the brochure). The response of the audience was encouraging as they raised several pertinent questions and came up with interesting comments. The respected speaker responded to all the questions and queries with elan.
